### INDEPENDENT AUDITOR'S REPORT

To the Board of Education School District of Holmen Holmen, Wisconsin

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the School District of Holmen ("District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the School District of Holmen, as of June 30, 2018 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Change in Accounting Principle**

As discussed in Note 16, the District adopted new accounting guidance, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Our opinion is not modified with respect to this matter.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedule of proportionate share of net pension liability, schedule of employer contributions, schedule of changes in net supplemental pension liability, schedule of changes in net OPEB liability, and notes to required supplementary information on pages 6.0 -6.13 and 49-57. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the School District of Holmen's basic financial statements. The supplementary information identified in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The supplementary information identified in the table of contents and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information identified in the table of contents and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

۰.

-

.

# School District of Holmen Management's Discussion and Analysis Year ended June 30, 2018

This section of the School District of Holmen's annual Financial Statements and Independent Auditor's Report presents the District Management's discussion and analysis of the District's financial performance during the year ending June 30, 2018. In addition, it includes discussion on how these statements and report are affected by prior financial decisions and future vision of the District's finances.

While the Financial Statements and Independent Auditor's report includes detailed information on all financial activity of the District, the Management Discussion and Analysis will attempt to summarize those facts that have been determined to be most "Noteworthy Facts" (SECTION I) and the "Required Discussion and Analysis" (SECTION II).

## SECTION I Noteworthy Facts

Noteworthiness for this report is determined primarily by: deviation from budget or deviation from past trends and constituency interest. Consequently, this year's Management Discussion and Analysis focus is on two topics:

# A. Budget to Actual Variances

B. Focus Area – Fiscal Sustainability

## A. BUDGET TO ACTUAL VARIANCES

In reviewing budget to actual variances, the following criteria have been set to determine variances that will receive further explanation here. Criteria are:

- Line item variance amounts (Final Budget to Actual) that are greater than .5% of the corresponding total budgeted fund revenue or expense amount, OR
- Line item variance amounts (Final Budget to Actual) that are greater than 10% of the corresponding budget for that line item and greater than .1% of total budgeted fund revenue or expense amount.

Based upon these criteria the following variances, variance causes and variance reduction strategies have been identified.

The criteria the District uses to determine which variances will receive further explanation in the Management Discussion and Analysis represent high standards. These high standards are borne from the high expectations for accuracy and financial credibility in the District. Such high standards are intended to motivate the continuous improvement necessary to achieve excellence. Conversely, it should be understood that adopting criteria that exemplify such high standards, are more likely to point out relatively minor deviations from perfection.

While the budgeting process is not an exact science, every attempt has been made to formulate an original budget from the best information available. Revisions to the original budget are made several times during the year. Revisions represent updates to revenue projections by local, state and federal agencies as confirmed throughout the fiscal year. Expenditure revisions are made as the actual costs associated with the following become known: capital improvement projects, enrollment driven staffing, special needs student staffing, leave benefits utilization by staff and benefits elections by staff, utility rates, fuel rates, etc.

The District finished the fiscal year with actual revenues of \$52,458,866, which are \$1,335,920 more than actual expenditures of \$51,122,946. The \$1,335,920 surplus was added to the General fund balance bringing the total balance to \$12,461,268. The surplus was primarily due to 2017-18 safety and security referendum taxes receipted in 2017-18, but construction not yet completed.

| Budget Lines                                             | Variance<br>Amounts<br>Favorable<br>(Unfavorable) | Cause of Variances                                                                                                                                                                                                                                                                       | Variance Reduction Strategies                                                                                                                                                                                                                                                                                                                             |

### **Special Education Fund**

Audit standards no longer require a separate "Variance to Final Budget" report for the special Education Fund. (See page 50 "Budget and Actual – General Fund and Special Education Fund" for details on the Special Education Fund line item budget and actual information.)

**Debt Service Fund** (See page 51)

The Debt Service Fund experienced a decrease in fund balance from \$3,659,672 to \$2,924,170.

#### Referendum Debt

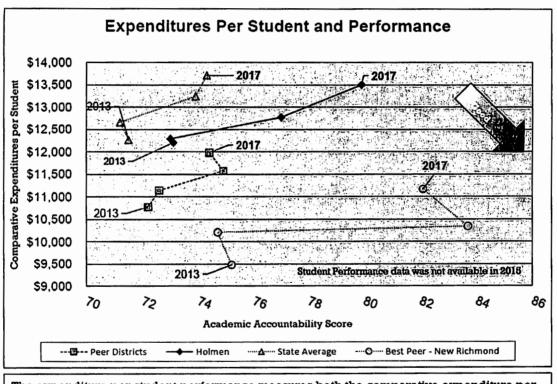

The Referendum Debt budget called for a \$747,170 decrease in Fund Balance. The actual net change in fund balance was a decrease of \$735,502, a budget variance of \$11,668. The use of fund balance is a planned strategy based on a predetermined long-term debt schedule.

<u>Non-Referendum Debt</u> (*No fund activity to report*) <u>Capital Projects Fund</u> (*No fund activity to report*)

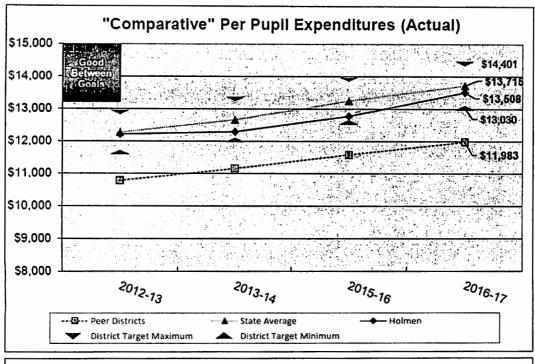

# **B. FOCUS AREA – FISCAL**

Since 2005 specific reporting has taken place on District defined Financial Performance Results. In 2017-18, the School District of Holmen, along with input from our Board of Education, staff and students, refined what the stakeholders deem as most important to the success of a student in Holmen. As a result, a District Dashboard was developed. The Dashboard communicates our District story by showing areas of strength and opportunities for improvement. The Dashboard is organized by our five focus areas (1) Student Learning, (2) Fiscal, (3) Workforce, (4) Customer/Stakeholder Engagement, and (5) Health and Safety. Several measures for each of these focus areas can be found in the School District of Holmen Annual Report.

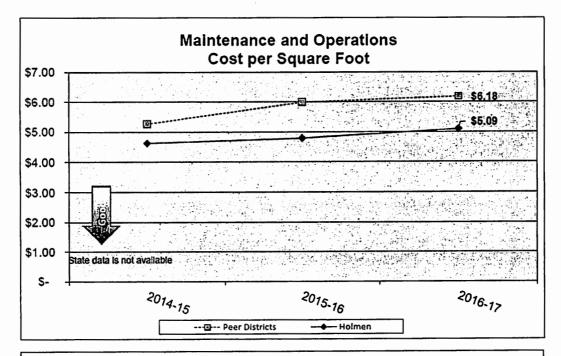

The nine Financial Performance Results measures are presented below.

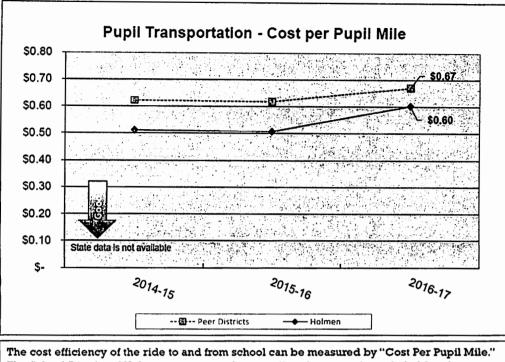

The expenditure per student performance measures both the comparative expenditure per pupil and student performance, using the academic accountability score. These two measures are then examined in relationship to one another. The District's expenditure per student performance can improve due to either our own improvement or the slide in performance by other peer districts. Conversely, our expenditure per student performance can decline due to either a slide in our own performance or an improvement by other peer districts. The comparative nature of the expenditure per student performance requires the District to make more effective choices on how we spend money.

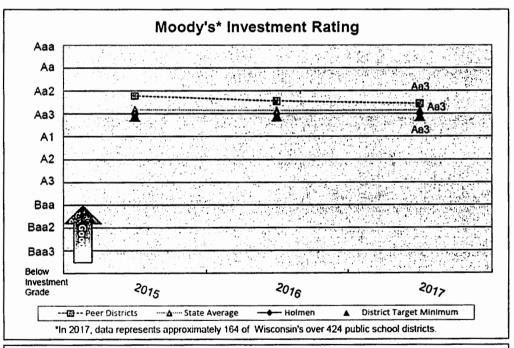

The "comparative" per pupil expenditures (actual) is a lagging indicator that measures the financial resources that were applied to deliver services to pupils. "Comparative" values exclude from the total cost the following expenditures: transportation, capital, debt, and miscellaneous expenditures. As stated by the Wisconsin Taxpayers Alliance, "Including ... (these) ... expenditures in District spending comparisons can be misleading." The "Comparative" measure accounts more specifically for those controllable costs directly associated with servicing students. (Data source changed in 2016-17. All data updated. Data unavailable for 2014-15.)

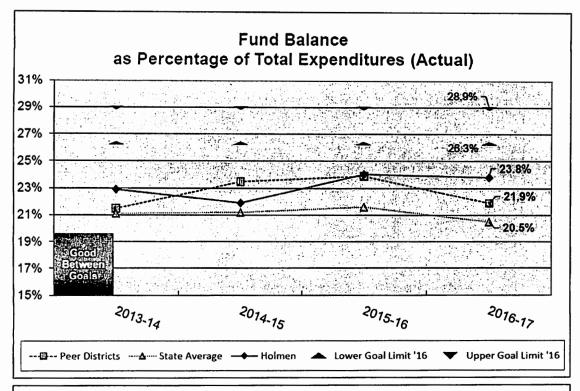

The maintenance and operations cost per square foot is a measure that compares Holmen's cost per square foot for maintenance operations, to that of our peer districts. The importance of this measure is to track our costs compared to our peers to ensure efficiency of operations, yet have the funding required to effectively maintain the fixed assets within the District. The cost of maintenance and operations have been consistently lower than our peers for several years.

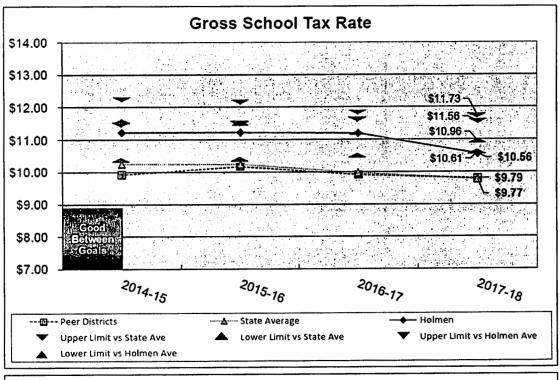

The cost efficiency of the ride to and from school can be measured by "Cost Per Pupil Mile." The School District of Holmen parents, students, staff, and community stakeholders have identified cost as a key performance factor in delivery of transportation services. Cost efficiency, while maintaining quality, defines the value of transportation services. This shows the School District of Holmen's transportation service is a good value to the stakeholders of the District.

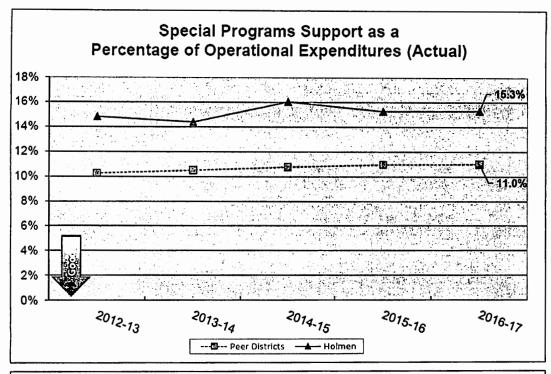

Moody's investment rating is a lagging indicator that measures the District's financial stability. Moody's is an international ratings firm. As a third party, Moody's collects data on organizations such as schools. Moody's evaluates the data and then assigns a standardized rating of Aaa, Aa, A, or Baa. The highest category is Aaa and is given to organizations with the highest financial stability. There are further rating breakdowns within the Aa, A and Baa categories. This further breakdown is accomplished by assigning a numeric value of 1, 2 or 3 with 1 being the highest and 3 being the lowest rating. An A1 rating is better than an A3 rating. For districts that are frequently bonding to fund construction of new facilities, a high Moody's rating is important. A high rating positively influences the interest rate on the bonds.

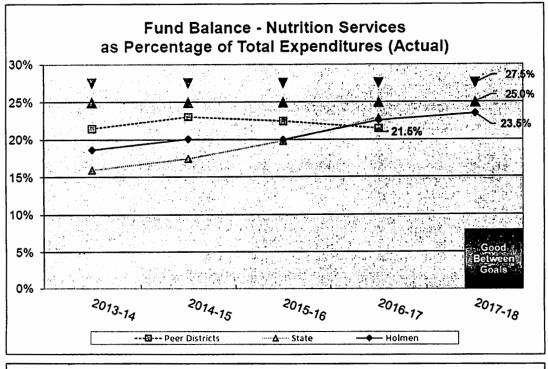

The fund balance as a percentage of total expenditures (FBPTE) is a leading indicator that measures the overall financial stability of an organization. Financial stability and affluence is not the same thing. Just as a person can be poor yet remain financially stable so can a school district. Financial stability comes from properly managing the more limited resources available.

The gross school tax rate (GSTR) is a lagging indicator that measures the property tax rate applied to owners of property within the boundaries of the school district. The tax rate is one way to measure the taxpayer cost impact of providing PK-12 public education. The most recent data available is from 2017-18. At that time, the District had a gross school tax rate of \$10.56.

Revenue and expenditures related to students with exceptional education needs are recorded in a separate fund account. This account is not allowed to end a fiscal year in a deficit position. Federal and state special education revenue sources do not adequately support special programs. A transfer from the general operational fund account is necessary to support the cost of delivering special programs. The special programs support as a percentage of the operational budget on special programs than its peer districts. This measure requires the District to analyze more effective choices on how we spend money, while still meeting the needs of all students.

The Fund Balance as a percentage of Total Expenditures is a leading indicator that measures the overall financial stability of the Nutrition Services Program. Financial stability comes from properly managing the limited resources available.

# SECTION II Required Discussion and Analysis

The Required Discussion and Analysis portion of this document comprises four topic areas. They are:

- A. Overview of the Financial Statement
- B. Financial Analysis of the District as a Whole
- C. Non-current Assets
- D. Long-Term Debt

### A. OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise 1) District-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition, other supplementary information to the basic financial statements is provided.

#### District-wide Financial Statements

- The District-wide financial statements are the NET POSITION (See page 7) and STATEMENT OF ACTIVITIES (See page 8). These statements present an aggregate view of the District's finances in a manner similar to private-sector business. Both statements distinguish functions/ programs into two operational categories. The first category, Governmental Activities, is financially supported mainly by property taxes and inter-governmental revenues. This category is a summary of all the operations of the District except Nutrition Services. The second category, Business Type Activities, is intended to cover all or a significant portion of costs through user fees and charges. This category is where Nutrition Services activity is represented.
- The NET POSITION presents information on all of the District's assets and liabilities, with the difference between the two reported as NET POSITION. Fiscal year end 2018 Total Assets valued at \$68,065,191 is more than the value of \$59,947,217 twelve months earlier. This represents a one-year increase of 13.54%.
- The STATEMENT OF ACTIVITIES presents information showing how the District's NET POSITION changed during the year. This statement reports the cost of government functions and how those functions were financed for the fiscal year. The NET POSITION for the year of \$40,929,612 is an increase of 12.12% over the \$36,506,593 prior year amount.

### **Fund Financial Statements**

- The District also produces fund financial statements. A fund is a grouping of related accounts that
  is used to maintain control over resources that have been segregated for specific activities. The
  District, like other state and local governments, uses fund accounting to demonstrate compliance
  with finance related legal requirements. Fund statements generally report operations in more
  detail than the District-wide statements and provide information that may be useful in evaluating a
  District's near-term financing requirements.
- There are two fund financial statements, the BALANCE SHEET GOVERNMENTAL FUNDS (See page 9) and the COMBINED STATEMENT OF REVENUES AND OTHER FINANCING SOURCES, EXPENDITURES AND OTHER FINANCING USES, AND CHANGES IN FUND BALANCE ALL GOVERNMENTAL FUND TYPES (See page 11). Generally, balance sheet reports provide a snapshot as of June 30<sup>th</sup> which summarizes assets, liabilities, and the impact on fund balance. The COMBINED STATEMENT OF REVENUES AND OTHER FINANCING SOURCES, EXPENDITURES AND OTHER FINANCING USES, AND CHANGES IN FUND BALANCE ALL GOVERNMENTAL FUND TYPES provides additional information on inflows and outflows that affected fund balance.
- Because the focus of fund financial statements is narrower than that of the District-wide statements it is useful to make comparison between the information presented. This helps readers better understand the long-term implication of the government's near-term financial decisions.

- The RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET -WITH THE STATEMENT OF NET POSITION (See page 10) reconciles the "TOTAL FUND BALANCE" as shown on the BALANCE SHEET - GOVERNMENTAL FUNDS (See page 9), to the Governmental Activities "Total Net Position" as shown on the STATEMENT OF NET POSITION (See page 7). This reconciliation adjusts for the balance sheet difference between financial reporting and fund accounting.
- The RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES (See page 12) provides financial information to adjust for the difference between the revenues/expenditures and how they are presented in financial reporting and fund accounting.
- The District has three types of funds: governmental, proprietary, and fiduciary. Governmental funds include the District's five regular funds (General, Special Education, Debt Service, Capital Projects and Other Governmental) and individual capital project funds as needed. The District has one proprietary fund, the food service fund and two fiduciary funds, a trust fund for student scholarships and a fund for student organizations and clubs.
- Financial information is presented in separate columns on both the BALANCE SHEETS GOVERNMENTAL FUNDS (See page 9) and the COMBINED STATEMENT OF REVENUES AND OTHER FINANCING SOURCES, EXPENDITURES AND OTHER FINANCING USES, AND CHANGES IN FUND BALANCE – ALL GOVERNEMTNAL FUND TYPES (See page 11) for the general, and debt service funds as these are considered to be major funds. Capital Projects funds would also be reported here as a separate column in years where the District had Capital Projects financial activity. Data for the Special Revenue Fund are reported in the "Non-Major Governmental Funds" column as these are considered non-major funds. While not present in this reporting period, other non-major funds might include a combination of Special Revenue Trust Fund, Pupil Activities – Agency Fund, Package Cooperative Fund, Capital Expansion Funds and others. Data for these individual non-major funds is provided separately as supplementary information (See pages 58-60).
- The proprietary fund statements for the District's food service program are prepared on the same basis of accounting and measurement focus as the District-wide financial statements. In addition, the District provides a "STATEMENT OF CASH FLOWS" for the proprietary fund (See pages 13, 14, 15 and 16).
- The District serves as a trustee, or *fiduciary*, for student scholarships and student organizations. The assets of these organizations do not directly benefit, nor, are under the direct control of the District. The District's responsibility is limited to ensuring the assets reported in these funds are used only for their intended purposes. *Fiduciary* activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations. The *STATEMENT OF FIDUCIARY NET POSITION – FIDUCIARY FUNDS* and the *STATEMENT OF CHANGES IN NET POSTION* are presented and prepared separately in an abbreviated format (See pages 17 and 18 respectively).
- The District opted for a "pay-as-you-go" method for other post-employment benefits. A schedule of funding progress for Wisconsin Retirement System Pension (Note 6 page 33-39), Supplemental Pension (Note 7 page 39-42) and Other Post-Employment Benefits (Note 8 page 42-45) is available as of 2017-18.
- The District adopts an annual appropriation budget for every fund it administers. Budget comparisons are made only for the major funds and present the original, revised and actual amounts in each major program area (See pages 50, 51 and 52).

### Notes to the Financial Statements

The notes to the financial statements provided additional information that is essential to the full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements follow the basic financial statements.

# B. FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table 1, provides a summary of the District's NET POSITION (See page 7) for the year ended June 30, 2018.

| Со                               | Table 1<br>ndensed NET POSITIC | DN                       |              |

| Unrestricted                     | \$1,471.19                     | \$4,049.92               | \$2,578.72   |
| Total NET POSITION               | \$36,506.59                    | \$40,929.61              | \$4,423.02   |

Between June 30, 2017 and June 30, 2018 "Total Assets" increased by \$8,117,974 or 13.54% and "Total Liabilities" decreased by \$4,045,255 or -13.97%.

- The change in "Total Liabilities" came from an increase in "Current Liabilities" of 20.57% and an 18.44% decrease in "Noncurrent Liabilities". Within "Current Liabilities" accounts payable increased by \$197,697 and the current portion of long-term obligations increased by \$460,525. Noncurrent Liabilities decreased \$4,727,932 due to a decrease in pension and OPEB actuarial liability and significant payments made on the principal of the debt obligations. The net decrease in "Total Liabilities" is \$4,045,255.
- "Total NET POSITION" increased by a total of \$4,423,019 or 12.12%. This included an increase in capital asset investments and general unrestricted assets, combined with a decrease in the WRS pension, debt service restricted assets and restricted food service assets. There was an increase in "Net Investment in Capital Assets" of \$3,235,894 and "Unrestricted" of \$2,706,719. There was a decrease in "Restricted WRS Pension" of (\$723,750), "Restricted Debt Service" (\$735,502) and "Restricted Food Service" of (\$60,342).

Table 2 provides summarized operating results and their impact on the change in NET POSITION (See page 8). Both the governmental and business-type activities contributed to the District's financial position in relation to NET POSITION. The largest increase in revenue was the state per pupil categorical aid (see below "Federal & State Aid Not Restricted") allocated to schools and gifts/grants for both instructional programs and facility projects (see below "Operating Grants & Contributions").

In expenditures, the "Instruction", "Pupil Services" and "Instructional Staff Services" categories decreased. "General and Building Administration", "Interest and Fiscal Charges" and "Other Support Services" expenditures also decreased. "Business Administration Services" increased \$25,720 due to capital improvement expenses. "Central Services" increased \$31,747 due primarily to increased purchased services for employee wellness initiatives and professional development. "Business Type Activity – Food Service" increased \$79,093, supported by revenue for meals served. "Insurance" and "Non-Program" expenses also increased.

Note: There may be a slight variance in totals due to rounding.

## C. NONCURRENT ASSETS (See page 7)

At the end of fiscal year 2018, the District had booked \$81,202,382 in non-current capital assets within its "Governmental Activities" accounts. These non-current assets included: land, buildings, sites, furniture, equipment and construction in progress (included in "Buildings & Building Improvements") (See Table 3 below). Total accumulated depreciation on these non-current assets was \$37,255,409. Detailed information about capital assets and depreciation of these assets can be found in Note 4 (See page 31) of the financial statements. Within this note, additions and deletions during fiscal year 2018 are itemized.

## D. LONG-TERM DEBT

At year-end, the District had \$23,157,981 in general obligation bonds and other long-term obligation (See Table 4 below and Note 5, starting on page 32), a decrease of -4.73% from July 1, 2017. This decrease of \$1,150,147 is the net effect of long-term obligations reductions of \$2,006,352 and additions of \$856,205. The largest reduction in Long-term Debt is a \$1,636,000 reduction in "General Obligation Bonds". "Sick and incentive leave days saw an increase of \$45,305. "Supplemental Pension" saw a net decrease of \$66,022 and "Other Post Employment Health Benefits" saw a net increase of \$506,570. The District has opted for a "pay-as-you-go" method to meet post-employment benefit obligations in lieu of making additional contributions to fund anticipated future liabilities.

NOTES TO FINANCIAL STATEMENTS

L.

### SCHOOL DISTRICT OF HOLMEN NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### A. <u>Reporting Entity</u>

The School District of Holmen (the "District") is organized as a common school district. The District, governed by a seven-member elected school board, operates grades K through 12 and is comprised of all or parts of six taxing districts.

The financial statements of the School District of Holmen have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

### B. <u>Component Units</u>

U.S. generally accepted accounting principles require that these financial statements include the primary government and its component units. Component units are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. All significant activities and organizations with which the District exercises oversight responsibility have been considered for inclusion in the general purpose financial statements. The District has no component units, and it is not included in any other governmental reporting entity.

### C. Basis of Presentation

### Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental and business-type activities. The statements report information on all of the District's non-fiduciary activities with eliminations made to minimize the double counting of internal transactions. Governmental activities include programs supported primarily by taxes, intergovernmental revenues and other nonexchange transactions. Business-type activities include operations that rely to a significant extent on fees and charges for support.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of expenses with program revenues identifies the extent to which each governmental function or business-type segment is self-financing or relies upon general revenues of the District.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

#### Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. All other funds are aggregated and reported as non-major governmental or non-major proprietary funds.

The District uses funds to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. Governmental funds are those through which most governmental functions typically are financed. The acquisition, use, and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- Total assets, liabilities, revenue or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- In addition, any other governmental or enterprise fund that the District believes is particularly important to financial statement users may be reported as a major fund.

The District reports the following major governmental funds:

*General Fund* - The General Fund is the primary operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in other funds. Special education revenues and expenses are included in the general fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term principal, interest and related costs.

The District operates one enterprise fund, the *food service fund*. This fund accounts for the activities of the District's food service programs, including the school breakfast and lunch programs.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

The District reports the following non-major governmental funds:

*Non-major special revenue funds* – used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Special Revenue Trust Fund

The District reports the following fiduciary funds:

*Private-Purpose Trust Funds* – used to account for resources legally held in trust for student scholarships.

Scholarships Trust Fund

Agency Funds --used to account for assets held by the District as an agent for individuals, private organizations, and/or other governmental units

Student Activities Fund

#### D. Measurement Focus and Basis of Accounting

The accounts of the District are organized on the basis of funds in conformance with the accounting system prescribed for elementary and secondary school districts by the Wisconsin Department of Public Instruction.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are included in the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in current financial resources.

All governmental fund types are accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The district considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital lease are reported as other financing sources.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, all deferred outflows of resources, all liabilities, and all deferred inflows of resources (whether current or non-current) associated with the operations of these funds are included on the balance sheet. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Proprietary and fiduciary fund statements are reported using the same focus and basis of accounting.

Property taxes are recognized as revenue in the fiscal year for which taxes have been levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific costreimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the district's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

State general and categorical aids and other entitlements are recognized as revenue at the time of receipt or earlier if the "measurable and available" criteria are met. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred. Aids received prior to meeting revenue recognition criteria are recorded as unearned revenue.

Charges for services provided to other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid entitlements.

Interest earnings on temporary investments are recognized in the fiscal period earned.

#### E. Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless regulations require separate accounts. Cash equivalents approximate fair value.

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. agency issues, high grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund.

Donations to the District of securities or other property are considered trust funds and are invested as the donor specifies. In the absence of any specific directions, the District may invest the donated items in accordance with laws applicable to trust investments.

## **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

All investments approximate fair value. Determination of fair value for investments in the state treasurer's investment pool is based on information provided by the State of Wisconsin Investment Board.

#### F. <u>Receivables and Payables</u>

The aggregate District tax levy is apportioned and certified by November 6th of the current fiscal year for collection to comprising municipalities based on the immediate past October 1st full or "equalized" taxable property values. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31st and a final payment no later than following July 31st. On or before January 15th, and the 20th of the subsequent month thereafter, the District is paid by the collecting municipalities its proportionate share of tax collections received through the last day of the preceding month. On or before August 20th, the county treasurer makes full settlement to the District for any remaining balance.

All accounts receivable are shown at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

Any amounts reported on the statement of net position for due to/from other funds represents amounts due between fund types (governmental activities, business-type activities and fiduciary funds). Eliminations have been made for amounts due to/from within the same fund type.

#### G. Interfund Receivables and Payables

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (non-current portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position.

#### H. Inventory

The District's food service inventory is valued at the lower of cost or market on a first-in, first-out basis.

#### I. <u>Prepaid Items</u>

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the district-wide and the fund financial statements.

#### J. <u>Capital Assets</u>

Capital assets, which include land, site improvements, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. Capital assets are reported at actual cost where possible, otherwise at estimated historical costs based upon an appraisal conducted by an independent third party professional appraisal firm. The District defines capital assets as those with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Donated capital assets are recorded at estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the

## **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued**

value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest incurred during the construction of capital assets is included as a part of the capitalized value of the assets constructed. During the year, no interest was capitalized as part of the cost of assets under construction.

Depreciation is calculated using the straight-line method over the useful lives of the assets. The estimated lives are as follows:

| Buildings and improvements | 15 - 50 years |
|----------------------------|---------------|
| Site improvements          | 20 years      |
| Furniture and Equipment    | 5 - 20 years  |

#### K. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest is reported as expenditures. Governmental fund types recognize bond premiums and discounts as well as bond issuance costs, during the current period. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### L. Deferred Outflows/Inflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

A deferred premium on refunding arises from an advance refunding of debt. The difference between the reacquisition price and the net carrying amount of the old debt should be deferred and amortized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or life of the new debt, whichever is shorter.

A cost-sharing employer is required to recognize pension expense and report deferred outflows of resources and deferred inflows of resources related to pensions for its proportionate shares of collective pension expense and collective deferred outflows of resources and deferred inflows of resources related to pensions.

Deferred outflows of resources and deferred inflows of resources related to pensions are required to be recognized by a cost-sharing employer, primarily from the results of proportionate changes in the components of the total pension liability and the pension plan's fiduciary net position.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

#### M. <u>Pensions</u>

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### N. Accumulated Unpaid Vacation, Sick Pay, and Other Employee Benefit Amounts

The District's policy does not allow vacation benefits to vest. Sick pay and early retirement benefits that require payment in future fiscal years are recorded as expenditures in the period or periods in which they are paid or are normally payable, rather than the period in which they are incurred for fund accounting purposes. For the government-wide statements, benefits are recorded when earned. See Note 7 and 8 for additional information regarding other employee benefits and the related liabilities. Accumulated sick pay eligibility and pay out terms are as follows:

|                        | Non-bus drivers                                                                                  | Bus drivers                                                                                      | Administrators                                                                                                                               | Supervisors                                                            | Teachers                                                               |

#### O. Fund Equity

#### Government-wide Financial Statements

Equity is classified as net position and displayed in three components:

a. Net investment in capital assets - consists of capital assets net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Also included here are deferred outflows of resources and deferred inflows of resources which are attributable to the acquisition, construction, or improvement of those assets.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

- Restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported. Constraints are placed on the use of restricted assets by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted component of net position consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

When both restricted and unrestricted resources are available for use, it is the District's policy to use unrestricted resources first, and then restricted resources as they are needed.

#### Fund Balance Classifications

Government fund equity is classified as fund balance. The District has elected to implement GASB Statement 54 employing new terminology and classification for fund balance items according to the following classifications:

- a. Non-spendable fund balances include current assets that are not expected to be converted to cash (prepaids and inventory) and long term assets.
- b. Restricted fund balances include amounts that can be spent only for the specific purposes stipulated by external resource providers (for example, grant providers), constitutionally, or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use).
- c. Unrestricted, committed fund balances include amounts that can be spent only for specific purposes approved by the Board.
- d. Unrestricted, assigned fund balances include amounts that can be spent only for specific purposes stipulated by representatives designated by the Board.
- e. Unrestricted, unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications.

Fund balance classifications for restricted and all categories of unrestricted amounts are considered to have been spent when an expenditure is incurred.

P. <u>Estimates</u>

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

## NOTE 2 - EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the governmental fund statements and government-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

# Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities

Differences between the governmental funds statement of revenues, expenditures and changes in fund balance and the statement of activities falls into one of three broad categories. The amounts shown on the Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities in the basic financial statements represent:

- a. Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities.
- b. Capital related differences include (1) the difference between proceeds from the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements versus capitalizing the purchase in the statement of net position and recording depreciation expense on those items as recorded in the statement of activities.
- c. Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the government-wide statements, long-term debt proceeds are recorded as a liability, interest expense is recorded as incurred, and principal payments are recorded as a reduction of liabilities.

#### **NOTE 3 - CASH AND INVESTMENTS**

Wisconsin Statute 66.0603 authorizes the District to invest in the following types of instruments:

- Time deposits in any credit union, bank, savings bank, trust company, or savings and loan association that is authorized to transact business in Wisconsin if the time deposit matures in not more than three years.
- Bonds or securities issued or guaranteed as to principal or interest by the federal government or by a commission, board, or other instrumentality of the federal government (U.S. Treasuries and U.S. agencies).
- Bonds or securities of any Wisconsin county, city, drainage district, technical college district, village, town or school district.
- Bonds issued by a local exposition district, local professional baseball park district, or local professional stadium district created under subchapter III or IV of chapter 229 of the Wisconsin statutes or bonds issued by the University of Wisconsin Hospitals or Clinics Authority.
- Any security maturing in seven years or less of the acquisition date with either the highest or second highest rating category of a nationally recognized rating agency.

#### **NOTE 3 - CASH AND INVESTMENTS, continued**

- Securities of open-end management investment companies or investment trusts if the portfolio is collateralized by bonds or securities, subject to various conditions and investment options.
- A local government investment pool, subject to certain conditions.

The District has adopted an investment policy which permits all investments allowed under the state statutes as described above.

The Debt Service Fund accounts for its transactions through separate and distinct bank and investment accounts as required by State Statutes. In addition, the Scholarships Trust and Student Activities Funds use separate and distinct accounts. All other funds share in common bank and investment accounts. At June 30, 2018, cash and investments were comprised of the following:

|                                                                         | Carrying<br>Amount                | Bank<br>Balance                 | Associated<br>Risks                                                |

| Subtotal                                                                | 12,965,006                        |                                 |                                                                    |
| Fiduciary funds<br>Total cash and investments                           | 266,085<br>\$ 13,231,091          |                                 |                                                                    |

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposits (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts. Deposits in the credit union are insured by the National Credit Union Administration in the amount of \$250,000 for all share draft accounts and \$250,000 for all share certificate and regular share accounts.

Bank accounts and credit unions are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual government organizations. This coverage has been considered in computing custodial credit risk. The District maintains a collateral agreement with one of its banks. At June 30, 2018, the bank had pledged various government securities with a fair market value of \$14 million to secure the District's deposits.

#### **NOTE 3 - CASH AND INVESTMENTS, continued**

#### Custodial Credit Risk

Deposits – Custodial credit risk is the risk that in the event of the failure of a depository financial institution, the District would not be able to recover its deposits.

The District does not have any deposits with financial institutions in excess of federal depository insurance limits that were not covered by the Wisconsin State Deposit Guarantee Fund or pledged securities at June 30, 2017, but this limit may have been exceeded at times during the year. At June 30, 2018, the District had deposits in excess of FDIC coverage of \$13.1 million.

Investments – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to the transaction, the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District does not have an investment policy for custodial credit risk. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Local Government Investment Pool (LGIP) does not have a credit quality rating. It is part of the State of Wisconsin Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board (SWIB). The LGIP is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Funds invested in the LGIP are due to the District on demand. The District has relied on data provided by the LGIP for the valuation of pooled investments.

SWIB may invest in obligations of the U.S. Treasury and its agencies, commercial paper, bank time deposits/certificates of deposit, bankers' acceptances, and asset backed securities and repurchase agreements secured by the U.S. Government or its agencies and other instruments authorized under State Investment Fund Investment guidelines.

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District's policy limits this risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market prior to maturity. The District also invests primarily in shorter-term securities, money market mutual funds, or similar investment pools, thereby limiting the average maturity of the portfolio.

The District's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

## **NOTE 3 - CASH AND INVESTMENTS, continued**

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

|                                 |          | Remaining Maturity (in Years) |          |                   |    |     |    |      |     |                |

#### Concentration of Credit Risk

The District's policy is to diversify the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

#### Fair Value Measurement

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following summarizes the classification of investments within the statement of net position by classification and method of valuation in accordance with the requirements of accounting principles generally accepted in the United States of America for the year ending June 30, 2018:

|                           |     |        | Fair Value    |    |        |               |
|---------------------------|-----|--------|---------------|----|--------|---------------|
|                           | _Le | evel 1 | Level 2       | Le | evel 3 | Total         |
| Investment Pools:<br>LGIP | \$  | -      | \$ 10,929,342 | \$ | -      | \$ 10,929,342 |

Certificates of deposit are exempt from fair value disclosure due to investments being valued at cost plus accrued interest earned.

# **NOTE 4 - CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2018 was as follows:

|                                 | Balance<br>07/01/17 | Additions           | Retirements | Balance<br>06/30/18                    |

| Total               | <u>\$ 14,584,000</u> | \$ 2,658,465 | <u>\$ 17,504,780</u> |  |

#### NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN

#### Plan description

The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statues. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011,

## NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN, continued

expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees), and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <u>http://etf.wi.gov/publications/cafr.htm</u>.

## Vesting

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

#### Benefits provided

Employees who retire at or after age 65 (54 for protective occupation employees and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vesting participants may retire at or after age 55 (50 for protective occupation) and receive an actuariallyreduced benefits. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

#### Post-retirement adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed

#### NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN, continued

amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

| Year | Core Fund Adjustment | Variable Fund Adjustment |
|------|----------------------|--------------------------|
| 2007 | 3.0%                 | 10.0%                    |
| 2008 | 6.6                  | 0.0                      |
| 2009 | (2.1)                | (42.0)                   |
| 2010 | (1.3)                | 22.0                     |
| 2011 | (1.2)                | 11.0                     |
| 2012 | (7.0)                | (7.0)                    |
| 2013 | (9.6)                | 9.0                      |
| 2014 | 4.7                  | 25.0                     |
| 2015 | 2.9                  | 2.0                      |
| 2016 | 0.5                  | (5.0)                    |
| 2017 | 2.0                  | 4.0                      |

#### **Contributions**

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,840,712 in contributions from the District.

Contribution rates as of June 30, 2018 are:

| Employee Category                        | <u>Employee</u> | <u>Employer</u> |
|------------------------------------------|-----------------|-----------------|
| General (including Teachers, executives, |                 |                 |
| and elected officials)                   | 6.7%            | 6.7%            |
| Protective with Social Security          | 6.7%            | 10.7%           |
| Protective without Social Security       | 6.7%            | 14.9%           |

#### PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

At June 30, 2018, the District reported an asset of \$5,508,186 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016 rolled forward to December 31, 2017. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension asset was based on the District's share of contributions to the pension plan relative to the contributions of all participating

# NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN, continued

employers. At December 31, 2017, the District's proportion was .186%, which was an decrease of .0009% from its proportion measured as of December 31, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$2,373,873.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|                                                           | <br>rred Outflows<br>Resources | <br><u>erred Inflows</u><br>f Resources |
|-----------------------------------------------------------|--------------------------------|-----------------------------------------|
| Differences between expected and actual experience        | \$<br>6,998,288                | \$<br>3,273,567                         |
| Net differences between projected and actual investment   |                                |                                         |
| earnings on pension plan investments                      | 5,895,359                      | 13,465,849                              |
| Change in assumptions                                     | 1,088,310                      | -                                       |
| Changes in proportion and differences between employer    |                                |                                         |
| contributions and proportionate share of contributions    | 42,562                         | 80,946                                  |
| Employer contributions subsequent to the measurement date | 1,051,473                      | -                                       |
| Total                                                     | \$<br>15,075,992               | \$<br>16,820,362                        |

\$1,051,473 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension asset in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

|                     | Deferred Outflows |              | <u>D</u> | eferred Inflows |

| Total               | \$                | 14,024,519   | \$       | 16,820,362      |

#### NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN, continued

#### Actuarial assumptions

The total pension liability in the December 31, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial Valuation Date:                         | December 31, 2016              |
|---------------------------------------------------|--------------------------------|
| Measurement Date of Net Pension Liability (Asset) | December 31, 2017              |
| Actuarial Cost Method:                            | Entry Age                      |
| Asset Valuation Method:                           | Fair Market Value              |
| Long-Term Expected Rate of Return:                | 7.2%                           |
| Discount Rate:                                    | 7.2%                           |
| Salary Increases:                                 |                                |
| Inflation                                         | 3.2%                           |
| Seniority/Merit                                   | 0.2% - 5.6%                    |
| Mortality:                                        | Wisconsin 2012 Mortality Table |
| Post-retirement Adjustments*                      | 2.1%                           |

\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2015 using experience from 2012 - 2014. The total pension liability for December 31, 2017 is based upon a roll-forward of the liability calculated from the December 31, 2016 actuarial valuation.

#### Long-term expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

# NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN, continued

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.75%

Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

#### Single Discount rate

A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.31%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the District's proportionate share of the net pension asset to changes in the discount rate

The following presents the District's proportionate share of the net pension asset calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1- percentage-point

# NOTE 6 - WISCONSIN RETIREMENT SYSTEM (WRS) PENSION PLAN, continued

higher (8.20 percent) than the current rate:

|                                      | <u>1%</u> | Decrease to    | <u>Cu</u> | rrent Discount | <u>19</u> | 6 Increase to  |

| of the net pension liability (asset) | \$        | 14,251,558     | \$        | (5,508,186)    | \$        | (20,526,203)   |

#### Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <u>https://etf.wi.gov/publications/cafr.htm</u>.

Payables to the pension plan at June 30, 2018 were \$358,235. This represents contributions earned as of June 30, 2018, but for which payment was not remitted to the pension plan until subsequent to year-end.

#### **NOTE 7 - SUPPLEMENTAL PENSION PLAN**

#### Plan Description

The District deposits funds into an HRA for eligible employees at retirement. These funds are used to pay retiree medical premiums. The supplemental pension plan is a single-employer defined benefit plan administered by the District. Amendments to the plan may only be made by the District.

#### Plan Membership

At June 30, 2017, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefit payments | 17  |
|--------------------------------------------------------------------------|-----|
| Inactive employees entitled to but not yet receiving benfit payments     | 0   |
| Active Employees                                                         | 322 |
| Total                                                                    | 339 |

#### Funding Policy

Payments under the plan are made on a pay-as-you go basis. There are no invested plan assets accumulated for payment of future benefits. The general fund is used for funding of all pension/retirement benefits. The employer makes all contributions.

#### **NOTE 7 - SUPPLEMENTAL PENSION PLAN, continued**

#### **Benefits Provided**

The table below provides eligibility criteria by group and benefit amounts:

|                       | Teachers/Nurses                                                                                                                                                                                                                           | Administrators                                                                                                                     | Supervisors                                                                                                                                                                                                                               |

Note: Retired Administrators receive continued medical insurance after retirement in return for 10 days of consulting services per year. We have interpreted this to be current year compensation and not an OPEB and, therefore, is not included in this valuation.

\*Includes one year of service credit for every five years of Wisconsin Retirement System service with other school districts.

#### Annual Pension Cost and Total Pension Liability

The District's annual pension cost and total pension liability for the current year is as follows:

#### Change in Total Pension Liability

| Total Pension Liability as of June 30, 2017 | \$<br>2,367,129 |
|---------------------------------------------|-----------------|
| Changes for the year:                       |                 |

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported a liability of \$2,301,107 for the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension

#### **NOTE 7 - SUPPLEMENTAL PENSION PLAN, continued**

liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018. There have been no significant changes in assumptions or benefits terms between the valuation date and the measurement date.

For the year ended June 30, 2018, the District recognized pension expense of \$195,800.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to supplemental pension from the following sources:

|                                                   | Deferred Outflows | Deferred Inflows of |  |
|---------------------------------------------------|-------------------|---------------------|--|
|                                                   | of Resources      | Resources           |  |
| Difference between expected and actual experience | <u>\$</u>         | <u>\$ 141,584</u>   |  |
| Total                                             | <u>\$</u>         | <u>\$ 141,584</u>   |  |

Amounts reported as deferred outflows and deferred inflows of resources related to supplemental pension will be recognized in pension expense as follows:

|                     | D       | Deferred Outflows Deferred Inflo |           |              |
|---------------------|---------|----------------------------------|-----------|--------------|
| Year ended June 30: |         | of Resources                     |           | of Resources |
| 2019                | \$      | -                                | \$        | 10,702       |
| 2020                |         | -                                |           | 10,702       |
| 2021                |         | -                                |           | 10,702       |
| 2022                |         | -                                |           | 10,702       |
| 2023                |         | -                                |           | 10,702       |
| Thereafter          | <u></u> |                                  |           | 88,074       |
| Total               | \$      | -                                | <u>\$</u> | 141,584      |

#### Actuarial Methods and Assumptions

The actuarial assumptions that determined the pension liability are based upon the results of actuarial experience used by Wisconsin Retirement System (WRS) experience based on 2009-2011 WRS experience to value pensions for public school employees. The assumptions are detailed as follows:

| Actuarial Valuation Date:                 | June 30, 2017               |
|-------------------------------------------|-----------------------------|
| Measurement Date of Net Pension Liability | June 30, 2018               |
| Actuarial Cost Method:                    | Entry Age                   |
| Discount Rate:                            | 2.75%                       |
| Municpal Bond Rate Source                 | Bond Buyer 20-Bond Go Index |
| Salary Increases:                         | 3.00%                       |

## **NOTE 7 - SUPPLEMENTAL PENSION PLAN, continued**

#### Discount Rate

The discount rate will be determined as of the measurement date of June 30, 2017, rolled forward to June 30, 2018 based on a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA.

#### Sensitivity of the District's net pension liability to changes in the discount rate

The following presents the net pension liability of the District, calculated using the discount rate of 2.75%, as well as what the District's net pension liability would be if it were calculating using a discount rate that is 1-percentage-point lower (1.75%) or 1-percentage-point higher (3.75%) than the current rate:

|                       | <u>19</u> | 1% Decrease to |    | Current Discount |    | % Increase to  |
|-----------------------|-----------|----------------|----|------------------|----|----------------|
|                       | <u>D</u>  | iscount Rate   |    | Rate             | Ľ  | biscount Rate  |
|                       |           | <u>(1.75%)</u> |    | <u>(2.75%)</u>   |    | <u>(3.75%)</u> |
| Net Pension Liability | \$        | 2,414,131      | \$ | 2,301,107        | \$ | 2,190,711      |

At June 30, 2018, the District reported a payable of \$0 for the outstanding amount of contributions to the plan required for the year ended June 30, 2018.

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB)

#### **Plan Description**

The District provides an early retirement health insurance benefit to eligible staff. The benefit is determined based on position, longevity and union membership (if applicable). This is a single-employer defined benefit postemployment health plan administered by the District. The benefits are treated as being earned over the working lifetime of the employee so that the cost is fully charged to operations by the earliest date of eligibility under the plan.

#### Plan Membership

At June 30, 2017, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefit payments | 12  |
|--------------------------------------------------------------------------|-----|
| Inactive employees entitled to but not yet receiving benefit payments    | 0   |
| Active Employees                                                         | 567 |
| Total                                                                    | 579 |

#### Funding Policy

Payments under the plan are made on a pay-as-you go basis. There are no assets that have been segregated and restricted to provide for retiree medical benefits. The general fund is used for funding of all OPEB benefits. The employer makes all contributions.

# NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB), continued

#### **Benefits Provided**

A description of the single-employer benefit plan is as follows:

|                                | Teacher/<br>Nurses | Administrators | Supervisors | Support<br>Staff |
|--------------------------------|--------------------|----------------|-------------|------------------|

#### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the District reported a liability of \$5,256,204 for the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018. There have been no significant changes in assumptions or benefits terms between the valuation date and the measurement date.

For the year ended June 30, 2018, the District recognized OPEB expense of \$596,843.

# NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB), continued

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|                                                   | Deferred Outflows | Deferred Inflows of |        |  |
|---------------------------------------------------|-------------------|---------------------|--------|--|
|                                                   | of Resources      | Reso                | ources |  |
| Difference between expected and actual experience | <u>\$</u>         | <u>\$</u>           | 76,906 |  |
| Total                                             | <u> </u>          | \$                  | 76,906 |  |

Amounts reported as deferred outflows and deferred inflows of resources related to OPEB will be recognized in pension expense as follows:

|                     | Deferred Out | <u>flows</u> | Deferre | <u>i Inflows</u> |
|---------------------|--------------|--------------|---------|------------------|

| 2022                |              | -            |         | 7,555            |
| 2023                |              | -            |         | 7,555            |
| Thereafter          |              |              |         | 39,131           |
| Total               | \$           | -            | \$      | 76,906           |

#### Actuarial Methods and Assumptions

The actuarial assumptions that determined the OPEB liability are based upon the results of actuarial experience used by Wisconsin Retirement System (WRS) experience based on 2009-2011 WRS experience to value pensions for public school employees. The assumptions are detailed as follows:

| Actuarial Valuation Date:                 | July 1, 2017                |
|-------------------------------------------|-----------------------------|
| Measurement Date of Net Pension Liability | June 30, 2017               |
| Actuarial Cost Method:                    | Entry Age                   |
| Discount Rate:                            | 2.75%                       |
| Municpal Bond Rate Source                 | Bond Buyer 20-Bond Go Index |
| Salary Increases:                         | 3.00%                       |
| Healthcare Cost Trend:                    |                             |
| 2018-2019                                 | 8.00%                       |
| 2020-2021                                 | 7.00%                       |
| 2022-2023                                 | 6.00%                       |
| 2024 & after                              | 5.00%                       |

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB), continued

#### **Discount Rate**

The discount rate will be determined as of the measurement date of June 30, 2017 based on a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA.

#### Sensitivity of the District's net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the District, calculated using the discount rate of 2.75%, as well as what the District's net OPEB liability would be if it were calculating using a discount rate that is 1-percentage-point lower (1.75%) or 1-percentage-point higher (3.75%) than the current rate:

|                    | <u>1%</u> | 1% Decrease to |           | Current Discount |    | <u>6 Increase to</u> |
|--------------------|-----------|----------------|-----------|------------------|----|----------------------|
|                    | <u>D</u>  | iscount Rate   | ]         | Rate             | D  | iscount Rate         |
|                    |           | <u>(1.75%)</u> | <u>(2</u> | <u>.75%)</u>     |    | <u>(3.75%)</u>       |
| Net OPEB Liability | \$        | 5,712,971      | \$        | 5,256,204        | \$ | 4,830,127            |

#### Sensitivity of the District's net OPEB liability to changes in the healthcare cost trend rate

The following presents the net OPEB liability of the District, calculated using healthcare cost trend rate of 8.00%, as well as what the District's net OPEB liability would be if it were calculating using a healthcare cost trend rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

|                    |     |                | Hea   | lthcare Cost  |             |               |
|--------------------|-----|----------------|-------|---------------|-------------|---------------|
|                    | 1%  | Decrease (7%   | Trer  | nd Rates (8%  | <u>1%</u>   | Increase (9%  |
|                    | dec | reasing to 4%) | decre | easing to 5%) | <u>decr</u> | easing to 6%) |
| Net OPEB Liability | \$  | 4,153,409      | \$    | 4,749,634     | \$          | 5,460,740     |

At June 30, 2018, the District reported a payable of \$0 for the outstanding amount of contributions to the plan required for the year ended June 30, 2018.

## **NOTE 9 - NET POSITION AND FUND BALANCE**

At June 30, 2018, food service net position of \$653,635 after subtracting the amount for net investment in capital assets, was restricted for food service programs.

At June 30, 2018, the Governmental Activities net position balance, after subtracting net investment in capital assets and the amount restricted for debt service, was \$7,828,814.

At June 30, 2018, \$24,450 of the special revenue fund residual fund balance was in non-spendable form, and the remaining balance of \$775,436 was restricted for special revenue fund purposes.

At June 30, 2018, \$2,924,170 of the debt service fund residual fund balance was restricted for payment of debt service expenditures.

#### **NOTE 9 - NET POSITION AND FUND BALANCE, continued**

At June 30, 2018, \$21,782 of the general fund residual fund balance was in non-spendable form, \$1,333,068 was committed for future HRA stipends, retiree medical insurance and sick leave payouts, and the remainder \$11,106,418 was unassigned.

#### NOTE 10 - OPERATING LEASE, AS LESSEE

The District, as lessee, leases copy machines and other equipment at varying monthly payments. Lease expense for the year ended June 30, 2018 was \$56,103. Minimum annual lease payments are as follows:

| Year ended June 30, 2019        | \$        | 14,778 |
|---------------------------------|-----------|--------|
| 2020                            |           | 4,186  |
| 2021                            |           | 1,399  |
| 2022                            |           | 919    |
| Total minimum payments required | <u>\$</u> | 21,282 |

#### NOTE 11 - PERPETUAL TRUSTS

The District is a beneficiary of a Charitable Trust. This perpetual trust, administered by a third party trustee, provides the irrevocable right to receive unrestricted income distributions in perpetuity. The activity of the perpetual trust is accounted for in the Scholarships Trust Fund.

Changes in perpetual trust restricted net position for the year ended June 30, 2018 are as follows:

|                                                  | Restricted for<br>Scholarships -<br>Spendable |                   |  |  |
|--------------------------------------------------|-----------------------------------------------|-------------------|--|--|
| Balance at beginning of year<br>Net appreciation | \$                                            | 531,569<br>11,200 |  |  |
| Balance at end of year                           | <u>\$</u>                                     | 542,769           |  |  |

#### **NOTE 12 - PRIOR YEAR DEBT DEFEASANCE**

In May 2012, the District defeased \$3,805,000 (the final five principal payments due on the G.O. Refunding Bonds, Series 2004C) by placing the proceeds of General Obligation Refunding Bonds, Series 2012 and District debt service proceeds of \$4,242,062 into an irrevocable trust to provide for all future debt service payments on the old Series 2004C bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. Cash flows required to service the new debt are \$218,001 more than servicing the old debt. The economic gain or present value savings from the debt defeasance is \$193,090. At June 30, 2018, bonds outstanding of \$3,805,000 are considered defeased.

#### NOTE 13 - LIMITATION ON SCHOOL DISTRICT REVENUES

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes unless a higher amount is approved by a referendum. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

# **NOTE 14 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft or, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in coverage compared to the prior year.

# NOTE 15 - COMMITMENTS AND CONTINGENCIES

From time to time, the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial position or results of operations.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

Funding for the operating budget of the District comes from many sources, including property taxes, grants and aids from federal and state government sources, and other miscellaneous revenues. The State of Wisconsin provides a variety of aid and grant programs which benefit the District. Those aid and grant programs are dependent on continued approval and funding by the Wisconsin governor and legislature, through their budget processes. Any changes made by the State to funding or eligibility of local aid programs could have a significant impact on the future operating results of the District.

At June 30, 2018, the District was committed to incur additional construction costs of approximately \$825,388 related to general improvements to its building.

#### NOTE 16 - RESTATEMENT OF NET POSITION AT JUNE 30, 2017

During the year the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, resulting in a restatement of net position as of June 30, 2017.

## NOTE 16 - RESTATEMENT OF NET POSITION AT JUNE 30, 2017, continued

Previously, the LTDI (Long term disability insurance) program was reported in a fund separate from the WRS fund. As of calendar year 2017, the LTDI program is combined and reported with the WRS fund. This change resulted in a restatement of the beginning net pension liability.

Expenses for the construction of the Administrative building were not included in construction in progress in 2016-2017, resulting in a restatement of net position as of June 30, 2017.

In previous years, OPEB was not allocated to food service, but there are food service employees that are eligible for the benefit..

As a result of the above, the District restated net position is as follows:

|                                     | <u>G</u>  | overnmental<br>Activities | <u>Business</u><br>Activitie |           |  |
|-------------------------------------|-----------|---------------------------|------------------------------|-----------|--|
| July 1, 2017                        | \$        | 35,657,222                | \$                           | 849,371   |  |
| Construction in progress            |           | 115,132                   |                              | -         |  |
| LTDI reported with WRS              |           | (196,844)                 |                              | (6,088)   |  |
| Allocation to food service for OPEB |           | 151,924                   |                              | (151,924) |  |
| GASB 75                             | _         | 1,542,614                 |                              | 37,933    |  |
| July 1, 2017 restated               | <u>\$</u> | 37,270,048                | \$                           | 729,292   |  |

#### NOTE 17 - SUBSEQUENT EVENTS

A referendum was approved for bonding of \$23,500,000 for the Holmen High School Improvements and \$460,000 for a recurring operating levy beginning fiscal year 2020-2021.

Management has evaluated subsequent events through November 30, 2018, the date this report was available to be issued.

# NOTE 18 - EFFECT OF NEW ACCOUNTING STANDARDS ON FINANCIAL STATEMENTS

The Government Accounting Standards Board (GASB) has approved the following:

- Statement No. 77, Tax Abatement Disclosures
- Statement No. 80, Blending Requirements for Certain Component Units an Amendment of GASB Statement No. 14
- Statement No. 81, Irrevocable Split Interest Agreements
- Statement No. 82, Pension Issues an Amendment of GASB Statements No. 67, No. 68 and No. 73

When they become effective, application of these standards may restate portions of these financial statements.

# HOLMEN SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2018

# **NOTE 1 - BUDGETS AND BUDGETARY ACCOUNTING**

Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The legally adopted budget and budgetary expenditure control is exercised at the two digit sub-function level in the general fund and at the function level for all other funds. Reported budget amounts are as originally adopted or as amended by School Board resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Based upon requests from District staff, District administration recommends budget proposals to the School Board.
- The school board prepares a proposed budget including proposed expenditures and the means of financing them for the July 1st through June 30th fiscal year.
- A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
- Pursuant to the public hearing, the School Board may make alterations to the proposed budget.
- Once the School Board (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire School Board.
- Appropriations lapse at year-end unless authorized as a carryover by the School Board. The portion of fund balance representing carryover appropriations is reported as a reserved fund balance.
- The District, as an extension of formal budgetary control, uses encumbrance accounting during the year. Encumbrances outstanding at year-end (i.e., purchase orders, contracts) are reported as reservations of fund balance.

## **NOTE 2 - BASIS OF ACCOUNTING**

The budget is prepared on the same modified accrual basis of accounting as applied to the governmental funds in the financial statements.

There is a perspective difference between the budget and reporting under generally accepted accounting principles (GAAP). For budgetary purposes the special education fund was budgeted separate from the general fund, but for GAAP the two are combined.

# HOLMEN SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2018

# NOTE 3 - EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUNDS

The following funds had an excess of actual expenditures over budget for the year ended June 30, 2018.

| Individual Fund and Function            | <u>Exp</u> | enditures |
|-----------------------------------------|------------|-----------|
| General Fund and Special Education Fund |            |           |
| Vocational                              | \$         | 428       |
| Other Instruction                       |            | 20,989    |
| Pupil services                          |            | 17,114    |
| Instructional staff services            |            | 21,339    |
| School administration services          |            | 56,125    |
| Business administration services        |            | 436,918   |
| Debt Service Fund                       |            |           |
| Debt Service                            |            | 475       |

## NOTE 4 – PENSION PLAN

## Changes of benefit terms

There were no changes of benefit terms for any participating employer in WRS.

Changes of assumptions

There were no changes in the assumptions.

## NOTE 5 - SUPPLEMENTAL PENSION

There are no invested plan assets accumulated for payment of future benefits.

## **NOTE 6 – OTHER POSTEMPLOYMENT BENEFIT**

There are no invested plan assets accumulated for payment of future benefits.

# **OTHER REPORTS**

## HOLMEN SCHOOL DISTRICT NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE YEAR ENDED JUNE 30, 2018

## **NOTE 1 - BASIS PRESENTATION**

The accompanying schedules of expenditures of federal awards and state financial assistance include the federal and state grant activity of the School District of Holmen under programs of the federal government and state agencies for the year ended June 30, 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net assets, or cash flows of the District.

## **NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The District has elected not to use the 10% de minimis indirect cost rate

## NOTE 3 – NONCASH AWARDS

The amount of commodities reported on the Schedule of Expenditures of Federal Awards of \$189,429 is the value of commodities received by the District in the current year. The commodities are priced as prescribed by the Wisconsin Department of Public Instruction.

# NOTE 4 – SPECIAL EDUCATION AND SCHOOL AGE PARENTS PROGRAM

2017-2018 eligible costs under the State Special Education Program are \$8,030,726.

## **NOTE 5 – OVERSIGHT AGENCIES**

The District's federal oversight agency is the U.S. Department of Education. The District's state cognizant agency is the Wisconsin Department of Public Instruction.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education School District of Holmen Holmen, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the School District of Holmen ("District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District of Holmen's basic financial statements, and have issued our report thereon dated November 30, 2018.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE AND THE STATE SINGLE AUDIT GUIDELINES

To the Board of Education School District of Holmen Holmen, Wisconsin

#### Report on Compliance for Each Major Federal and State Program

We have audited the School District of Holmen's ("District") compliance with the types of compliance requirements described in the *Uniform Guidance Compliance Supplement* and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2018. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

-

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Uniform Guidance, *Audits of States, Local Governments, and Non-Profit Organizations;* and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal and state programs. However, our audit does not provide a legal determination of District's compliance.

## **Opinion on Each Major Federal and State Program**

In our opinion, the School District of Holmen complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2018.

### **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies in internal control over compliance with a type of compliance is in internal control over compliance is a deficiency, or a combination of deficiencies in internal control over compliance with a type of compliance requirement of a federal or state program will not be compliance is a deficiency, or a combination of deficiencies in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2018-001, that we consider to be significant deficiencies.

Holmen School District's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance, and the *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

## HOLMEN SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2018

### Section I - Summary of Auditor's Results, continued

Identification of major state programs:

| State I.D. Number | Name of State Program or Cluster         |
|-------------------|------------------------------------------|
| 255.101           | Special Education and School Age Parents |
| 255.201           | General Equalization Aid                 |
| 255.925           | Per Pupil Adjustment                     |

Dollar threshold used to distinguish between Type A and Type B state programs: \$250,000

#### Section II – Financial Statement Findings

None reported

## Section III - Federal and State Award Findings and Questioned Costs

#### 2018-001 Debarment

*Condition*: Federal grant regulations prohibit recipients from contracting with or making subawards to parties suspended or debarred from doing business with the federal government.

*Criteria*: The District must ensure that all vendor or subrecipients paid \$25,000 or more for goods and services is not suspended or debarred.

*Cause*: The District had policy and procedures for debarment in place, however, the policy and procedures need to be enforced to the employees.

*Effect*: The District could have made payments to vendors who were suspended or debarred and would have been responsible to repay the granting agency. We were able to determine the vendors used by the District had not been suspended or debarred; therefore, we are not questioning these costs.

*Recommendation*: We recommend the District ensure vendors paid with federal funds are not suspended or debarred and retain documentation to demonstrate compliance.

#### Section IV – Status of Prior Period Audit Findings

None reported

### **Corrective Action Plan**

#### 2018-001 Debarment

The School District of Holmen Business Office will communicate debarment certification requirement with those administrative and supervisor budget authorities providing federal award oversight. Debarment certification will be obtained prior to services rendered under an agreement. The Business Office will collect debarment proof from the budget authority annually and reconcile with contracted services provide and paid for using federal award funds. Debarment certification will be kept on file in the Business Office.
