

Workforce Connections, Inc. announces enhanced services to ensure *Healthcare Coverage for All*: Wisconsin Coverage Connections!

Although more and more children are getting enrolled into Medicaid and CHIP, there are still many without any form of health insurance coverage. “Wisconsin Coverage Connections” will serve those children and their parents that are eligible for the BadgerCare Plus program.

Workforce Connections, Inc. Healthcare Navigators will provide extensive outreach and face-to-face enrollment assistance in the small communities and rural areas of western Wisconsin where children and their families have a difficult experience in obtaining assistance with health care options, including BadgerCare Plus. Navigators can also assist families with the renewal of their BadgerCare eligibility; renewal must be completed annually, and a review is done every 6 months.

Please contact Healthcare Navigators, Wanda Palmer or Amy Larson for more information and for this FREE assistance!

*Navigators can also assist individuals and families to apply for coverage through the Health Insurance Marketplace.
